ATTACHMENT FOR CLAIM AMENDMENTS

The following is a marked up version of each amended claim in which underlines indicates insertions and brackets indicate deletions.

30.   (amended) <u>A computerized valet parking system comprising:</u>

<u>a first kiosk for collecting a first set of valet parking data from a first valet attendant;</u>

<u>a first digital camera array for collecting pre-parking digital images of a vehicle at an entrance location of a parking area;</u>

<u>a network server for linking the pre-parking digital images to the first set of valet parking data;</u> [The parking system of claim 29]

wherein the first digital camera array includes:

a first pre-parking camera focused on a front left region of the vehicle for generating a first pre-parking digital image;

a second pre-parking camera focused on a front right region of the vehicle for generating a second pre-parking digital image;

a third pre-parking camera focused on a rear right region of the vehicle for generating a third pre-parking digital image; and

a fourth pre-parking camera focused on a rear left region of the vehicle for generating a fourth pre-parking digital image.

31.   (amended) The parking system of claim [29] <u>30</u> further including:

a second kiosk for collecting a second set of valet parking data from a second valet attendant;

a second digital camera array for collecting post-parking digital images of the vehicle at an exit location of the parking area; and

said network server further linking the post-parking images and the second set of valet parking data to the pre-parking images and the first set of valet parking data.

33.   (amended) The parking system of claim [29] <u>30</u> wherein the first kiosk generates next vehicle retrieval requests.
